

Unicon

Tested and recommended by Qualicare and GRM/Germany.

Applicable for:

For cleaning and preservation of all surfaces made of coated and anodised Aluminium. Specially developed for one layer metallic lacquers and sensitive surfaces.

Composition and characteristics:

Unicon is a cleaner and preservative in one. Unicon is free of Silicone and aromatic hydrocarbons. Quick and easy to use, economic, high efficiency.

Instructions for use:

Shake well before using! Do not use on hot or wet surfaces. No warranty for improper use.

New, slight soiled surfaces:

Apply a thin even layer using a low-pressure spray gun or a soft soaked rag. Let it dry for a few seconds. Polish after short while using a clean, soft rag. Produces a shiny, water-repellent, thin layer.

Medium soiled surfaces:

Wash down first to avoid scratches and for better results. Then carry on like described above.

Safety information:

Flammable. Avoid open flames. Harmful. Store in cool, dry place

**Class 3 31c PG. III UN 1993 VbF: A III
Harmful, contains hydrocarbons**
